

# Mix & Match Quilting

by Anita Goodesign

Full  
Collection

The Traditions collection was inspired by one of our previous releases “Quilters Paradise”. The Quilters Paradise collection was designed years before the concept of Mix and Match quilting was released. I took a few pieces of the art from that collection and re-digitized them using a bolder bean stitch and folded fabric borders. The end result is like nothing you’ve ever seen. The folded fabric borders really compliment the designs. I then created a few different borders and transitional blocks to complete the collection. We chose Victorian style fabric for the collection and they really compliment the look.
