

Serenity Garden

Full Collection

I have always been inspired by the art and imagery of Asia and every year or so we release a collection showcasing it. In the past we have released collections like “Asian”, “Geisha”, “oriental Daydream” and “Zen Garden”. Our latest is titled Serenity Garden, and it contains 20 original pieces of artwork. Each of the designs come in 2 sizes and there are 18 design elements that have been separated from the larger scenes for smaller areas or in this case smaller towels. There are peacocks, pagodas, flowers and more. All of the designs are very detailed and would look great on anything you embroider them on. For our project we embroidered the designs on a towel set that we had purchased. I think the cherry blossoms on the towel would look great in any bathroom that they are displayed in. Enjoy the collection!
