

Little Monsters

*12 unique designs.
Each design comes in two sizes.*

This is a collection of 12 little monsters that are sure to make any kids eyes light up when they see them. Each monster is created using felt appliqué and comes in two different sizes. You can further embellish the shirt with different types of trims. We used pom-pom trim and decorative ribbon. You can also glue googly eyes on the monster for even more fun. These designs look great on shirts for both little boys and girls. The tutorial will show you how to create a unique t-shirt. This is a t-shirt that uses socks as sleeves. We originally saw a shirt like this in a high-end department store in NYC selling for over \$100.00! It is a very easy project to create. You simply need a child's t-shirt and a pair of suitable socks to use as sleeves.

Mini Collection

This quirky, cute collection looks great embroidered on any toddlers garment like our example... or to use as a decorating theme in a little girls or boys room!

Little Monsters

24 designs total. 12 unique designs in two sizes:
