proud sponsor of

## ThreadBanger

Open up and discover  
two ThreadBanger machines  
to rock your DIY world

# ThreadBanger

ThreadBanger.com brings together people who can share their DIY fashion ideas, tips and advice and help make the world more fashionable.

ThreadHeads was the first show to debut on ThreadBanger. New episodes every Friday are hosted by Rob and Corinne. They showcase a variety of designers and they share secrets of their own in the form of how-to DIY tutorials.

Now, with the ThreadBanger models, TB12 and TB30, the perfect creative tool is available to every DIY sewist!

# JANOME®

What will you Create?

# ThreadBanger

ThreadBanger.com is an online network for people who love to DIY, recreate, refashion and craft.

With the help of Janome's sponsorship, they help people create and find their own style. From their how-to videos, forums and blogs, to their newsletters and contests, there is something for everyone.

## Did you know...?

- Each American disposes of about 35 pounds of old clothing and other textiles each year. That's a lot of DIY fashion opportunity!
- Compact fluorescent lights typically consume 5 to 30 watts, and your Janome TB machine only uses 4 watts. Nice!
- In one year an estimated seven million tons of clothing and other textiles are thrown away.
