

# Supply List:

**A detailed list of supplies will be sent at least one month prior to class so you can cut your kit to be ready for class.**

**A kit containing everything you need is available. Kits will be shipped out 2 weeks before the class. Note the fabrics, hardware and notions will vary from the sample photo**

- 6x10 hoop for the bag. The bag design file measures 6" x 9.98" (make sure you can stitch a file this size before purchasing the class). The strap end file will fit a 4x4 hoop.
- No show cutaway stabilizer. Enough for 1 6x10 hoop and 1 4x4 hoop
- 2 fabrics - ½ yd of each will be plenty. One will be the main fabric and the other will be referred to as lining (some of this will show on the front side).
- 1 #5 zipper approximately 10" long with pull
- ¼ yard of cotton batting
- 2 5"x5" pieces of cork for the strap ends. The strap ends need to be made from non-fraying material. Cork is also used as an accent piece on the front of the bag under the zipper. This piece could be fabric if desired.
- Approximately 55" of 1" wide webbing
- A 1" swivel hook, 1" tri-glide, 1" D-ring to make the adjustable strap
- Optional: 3 Rivets 10mm. You will need the tool to apply them.
- Optional (but recommended): A 6x10 Hoop 'N Press Pad or the size used for the hoop you intend to stitch the bag in. Available from SewingMachinesPlus
