32 Designs Total

Mini Collection

This is a cute collection of Spring designs that will look great on anything from a garment to a home decor project. This collection was designed specifically to be fast and easy to embroider. Each of the designs are 4 colors or less and have no appliques or additional techniques in them. They are perfect for all of those last minute gifts that you have been putting off! For our project we embroidered the designs on towels, which always make the perfect gift! You can purchase towels that have trim on them already at major retailers everywhere or just create your own.
