Autumn Cutwork Medallions

We created two different table runners for this collection. We used the cutwork designs in two different color combinations. Both table runners were purchased at a store, this saved a lot of time because we didn't have to construct the project from scratch! You can even use a table runner you already have. We then stitched the designs on high quality linen and applied them to the blank runners. Our tutorial will give you the step-by-step instructions on how to create these great projects. There are 8 individual design icons without the medallion portion that comes in two sizes each. The medallions come in 2 different sizes and the corners have been re-sized and rotated so you don't have to do it!
