

Jumbo Halloween Applique

58 Designs

Full Collection

There are over 25 different Halloween designs in this collection that would look great on quilts, garments and even trick or treat bags! Most of the designs contain applique so that the stitches can be kept to a minimum without sacrificing the size of the designs. We used "craft felt" for most of the appliques. The samples we created are equally as fun as the designs themselves. We created three different sweatshirt jackets using creative sewing techniques and multiple embroidery designs. All the instructions on how to convert the sweatshirt into a jacket and the embroidery appliqué techniques are included in the tutorial on the CD-Rom. So jazz it up this Halloween with these fun projects.
