

Beach Tile Scene

9 block Tile Scene
in three sizes

Full Collection

Ready for the beach? This scene reminds me of my childhood on the Jersey Shore with lighthouses, sailboats, beautiful beach and a sand castle. Whenever you look at this tile scene you will remind you of being on vacation. This was a fun collection to design. The design is completely hand shaded for extra realism. This is a nine block tile scene that comes in three file sizes; a medium size for the 6"x10" hoop, a small size for the 5"x7" hoop and a large size for the 8"x12" hoop. You will notice that we did not stitch any ribbons over the seams that join the blocks in this tile scene. This is a little more difficult because you will need to be more precise. However, there is nothing wrong with adding ribbon and we show you how that technique is done in the tutorial.
