

Mix & Match Quilting

by Anita Goodesign

Full
Collection

The Baltimore Revisited collection was inspired by one of our previous releases “Baltimore Quilt”. The Quilters Paradise collection was designed years before the concept of Mix and Match quilting was released. I took a few pieces of the art from that collection and redigitized them using a bolder bean stitch and folded fabric borders. The end result is like nothing you’ve ever seen. The folded fabric borders really compliment the designs. I then created a few different borders and transitional blocks to complete the collection. We chose floral fabrics in shades of slate blue, tan and burgundy for the collection and they really compliment the look.

There is more insight into the quilt on the following pages.
