

Mix & Match Quilting

by Anita Goodesign

Full
Collection

Create a raised trapunto effect by trimming your batting in the hoop. The end result is a gorgeous puffy quilt!

We thought a Christmas collection would be a great theme for our second Trapunto collection. This Trapunto technique is nothing like the old techniques where you stuffed the fabric from the back. This technique uses batting that is cut in your hoop into different shapes to form the raised Trapunto effect. There are 20 different designs in 4 sizes each as well as two different sets of border designs.

Trapunto Christmas

This collection was designed to be compatible with all
Anita Goodesign Mix & Match Collections.

20 different designs in 4 sizes each as well as two different sets of border designs. Quilt blocks come in 7.8", 6.8", 5.8", and 4.8".
