

# Puffy Christmas Applique

20 Designs in two sizes

Baby Collection

We created this beautiful polar fleece quilt with our baby applique designs. There are twenty different Christmas designs offered in two different sizes. There is a large version for the jumbo hoop and a smaller version for the 5"x7" hoop. We used a technique called quilted applique when we created these designs and it is a fun and easy technique. The polar fleece quilt is also very fast and easy to do. The blocks for this quilt are 12" square since we created the project with the larger designs. You will need to adjust the block size if you decide to embroider the smaller versions. Instructions for the quilt and a lesson on how to create quilted applique is located on the CD-Rom in the Baby Tutorial.
