BROTHER – THE SMART CHOICE FOR EMBROIDERY

With over 115 years of trusted innovation, Brother has established itself as the undeniable leader in the sewing and embroidery industry, having sold over 70 million machines globally. Every Brother multi-needle machine is developed, designed, and manufactured by our skilled employees in state-of-the-art factories. This guarantees unmatched quality, reliability, and innovation throughout the entire production process.

Brother machines are engineered specifically for you: they're intuitive, quick to master, and ready to use right out of the box. Whether you're crafting custom gifts, launching a successful business, or scaling your embroidery operation, our machines deliver powerful personalization features and an extensive array of accessories that help you realize your vision – without the steep learning curve.

Our multi-needle embroidery machines offer commercial-grade performance in a compact design, delivering professional results without compromising on space. **When you choose Brother, you're making a bold decision to invest in a brand that stands firmly behind its products with exceptional support, service, and a proven legacy of excellence.**

Start smart. Grow fast. Create confidently – with Brother.

Commitment to Sustainability

At Brother, we're focused on cutting our environmental impact and driving innovation. We are constantly looking for creative ways to reduce size, weight, and use of virgin materials in our products. We're replacing traditional plastic-based foam with more sustainable fiber-based packaging. Through partnerships with groups like the National Arbor Day Foundation, Cool Earth, and WWF Japan, we're supporting global conservation and restoration efforts. We're shaping sustainable solutions that reflect our values and demonstrate our responsibility to future generations.

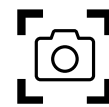

SAY HELLO TO YOUR HARDEST WORKING EMPLOYEE

Entrepreneur Pro W
PR1060W

Welcome to your Boss Era with the Entrepreneur Pro W PR1060W 10-needle embroidery machine. The Entrepreneur Pro W PR1060W excels in almost any environment. Whether you're a newcomer diving into multi-needle embroidery, an experienced hobbyist ready to launch your own business, or a well-established company aiming to enhance your services with custom embroidery, the Entrepreneur Pro W PR1060W is the ultimate machine that can help you deliver exceptional results. When you choose Brother—a trusted leader in embroidery—you can be confident you're getting a high-quality product built for reliability and durability.

FEATURES TO HELP TAKE YOUR BUSINESS TO THE NEXT LEVEL

VIRTUAL DESIGN PREVIEW

ABC

EMBROIDERY DESIGNS

Over 1,200 embroidery
designs, 50 fonts,
and one 3D font

APP COMPATIBILITY

Seamless access to
Brother-exclusive mobile
apps¹, Artspira and My
Stitch Monitor

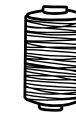

MY DESIGN CENTER

Expanded design
capabilities built
right in

GENEROUS WORKSPACE

Expansive embroidery
area of 8" x 14"

TEN-NEEDLE SPEED

Fast embroidery speeds
up to 1,000 stitches
per minute

MATRIX COPY FEATURE

Add a repeated design in
one hooping for increased
productivity—great for
patches or appliqué

LCD DISPLAY

Large 10.1"
high-definition
LCD display

10-NEEDLE

10-Needle Embroidery

Increase your productivity with 10 needles, allowing you to stitch designs up to 10 colors without changing thread. Each needle offers customizable settings for speed, color lock, and the disengagement of the needle threader—useful when using a thin needle or specialty thread.

Expansive Embroidery Area

The generous 8" x 14" embroidery area is perfect for sizable projects, including large home décor and jacket backs.

Fast Embroidery Speeds

Increase your productivity and efficiency with industry-leading high-speed acceleration! Reach up to 1,000 stitches per minute in seven seconds. Projects will be completed faster and with minimal noise. Get a professional finish, even on tricky items and while using specialty threads.

TEN-NEEDLES FOR THE ULTIMATE IN EFFICIENCY, CREATIVITY & PRODUCTIVITY

*Serious embroidery for
serious embroiderers.*

10-Needle Automatic Needle Threading

Threading made simple. With the built-in automatic needle threading system, thread each needle in seconds, and with just the touch of a button. With the Jump Stitch Thread Trimming feature, the PR1060W will automatically cut excess thread between stitch groups, creating cleaner, more professional-looking projects.

Small Footprint

The Entrepreneur Pro W PR1060W is expertly designed to fit seamlessly into any space, with a compact 3-foot footprint that maximizes convenience.

INTUITIVE DESIGN & EDITING FEATURES TO HELP YOU STAY AHEAD OF THE COMPETITION

Large 10.1" High-Definition LCD Display

The PR1060W is ready for whatever project you throw at it. Navigate crystal-clear icons on the large 10.1" high-definition LCD display. Scroll through the library of 1,280 built-in embroidery designs, 50 fonts, and one 3D puff embroidery font.

Best-in-Class Editing Features

Elevate your embroidery with top editing features: alignment options, undo/redo, grouping, text editing, and 'no sew' buttons to disable color selections in a design.

Adjustment and Zoom Features

View your creations in crisp, vivid color and see the design detail with the zoom function of up 200%. Easily adjust your design by rotating in .01-degree, 1-degree, 10-degree, or 90-degree increments.

Brother-Exclusive My Design Center Built-in Software

Take advantage of the My Design Center's built-in design capabilities—no PC required! Utilize features like custom drawing, inside and outside auto stippling, and adjustable fill patterns.

Matrix Copy

Add multiple copies of the same design to your project for larger production runs. It automatically places repeat designs for maximum efficiency, meaning you waste less fabric and time. Use this feature to create multiple patches in one hooping.

PRECISE DESIGN PLACEMENT, FEWER COSTLY MISTAKES

High-Speed Background Scanning

Place your design exactly where you want it, allowing less margin for costly errors. With the Brother-patented InnovEye Technology, you can scan your hooped fabric or garment and preview your design placement on the screen before you begin to embroider. Works with the optional cap and cylinder frames for tight spaces.

Virtual Design Preview

Use this feature for a live, real-time camera view of the needle area to see your embroidery design superimposed on your fabric before stitching, ensuring accurate placement and alignment.

SMART FEATURES THAT KEEP YOUR BUSINESS RUNNING SMOOTHLY – AND SECURELY

Security Lock Modes

Manage multiple users without multiple passwords and logins, adding to productivity and efficiency.

Shortcut Key Feature

Allows the user to jump directly to the preferred embroidery screen from multiple screens to save time.

Key Optimization System

Business owners can customize access to the machine functions, which helps secure essential business designs and keeps the operator focused on critical tasks.

Expandable Library of Tutorial Videos

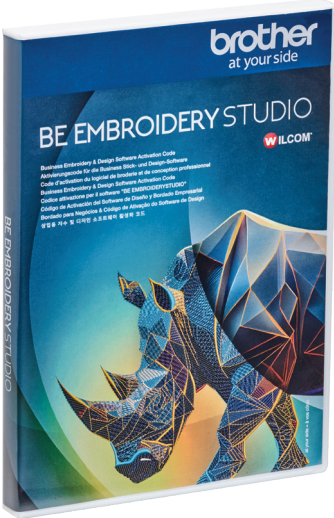

View 33 high-definition tutorial videos covering everything from basic operations to embroidery functions via a QR code on a mobile device. A QR code appears on the LCD screen when the video icon is selected. These videos will help users learn basic usage in as little as 90 minutes.

POWERFUL SOFTWARE & APPS TO FUEL YOUR CREATIVE BUSINESS OR HOBBY

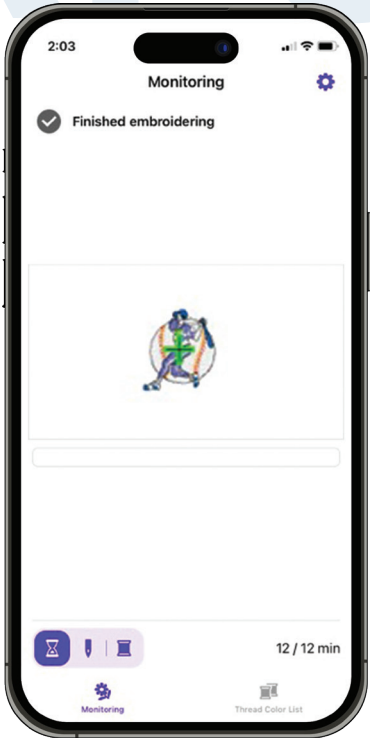

BE EmbroideryStudio Digitizing Software² for Creative Professionals

With a comprehensive set of embroidery digitizing tools, you can design and digitize logos and customize monogrammed designs using optional BE EmbroideryStudio Software. For advanced vector graphic editing, CorelDRAW® is integrated as a plugin within the software, allowing you to create and refine vector artwork, which can then be converted into embroidery data. Three special features are included: Hand Stitch Effect to create an organic hand-embroidery effect; Reef PhotoStitch to create photo embroidery with a single-stroke and single-color stitch; Photo Flash/PhotoStitch to convert any image into a multi-color digitized file, turning photos into artistic stitching.

Get Real-Time Project Updates with My Stitch Monitor Mobile App¹

The My Stitch Monitor mobile app allows you to keep track of your project with real-time status updates and get alerts when it's time to change threads or when your embroidery is finished. You can also be notified of upcoming color changes, which will allow you to prepare the next thread color needed.

*Images are for illustrative purposes only.

Enhance Your Productivity with PE-DESIGN Software²

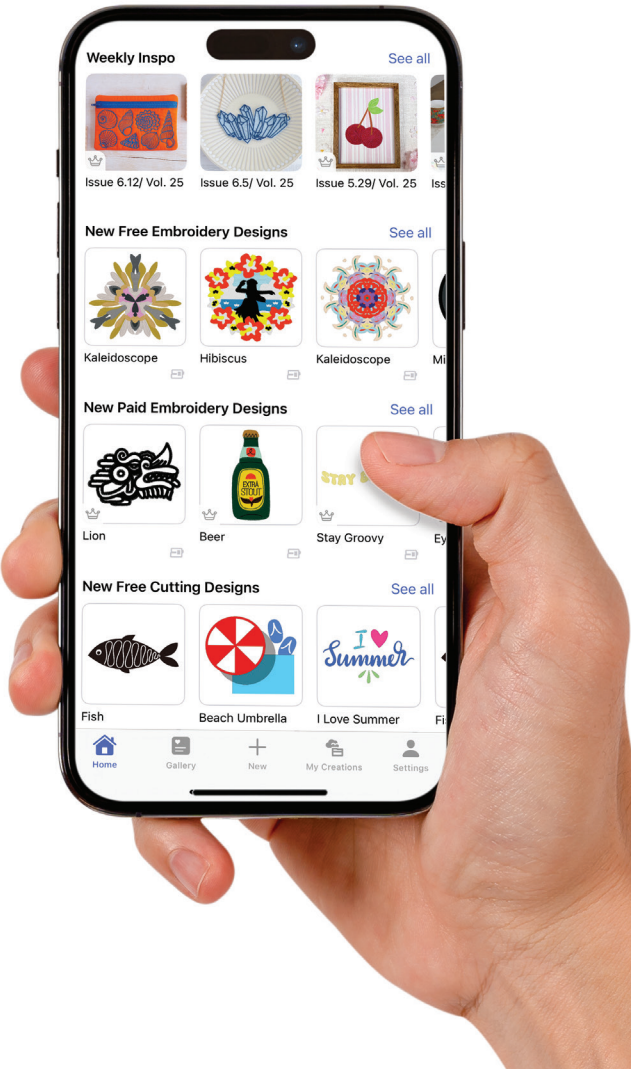

The optional PE-DESIGN 11 software allows you to wirelessly connect up to 10 machines using the link function. Easily transfer embroidery data from your computer to one or more PR1060W machines, significantly boosting your business's productivity.

Artspira

Design Without Limits – Anytime, Anywhere – with the Artspira Mobile App¹

The Artspira mobile app¹ from Brother is a powerful, cloud-based design platform. Access a wide variety of designs and easily edit, customize, and create right from your mobile device—no need to be tied to a desk. Artspira seamlessly connects to any Brother wireless-enabled embroidery machine, sublimation and fabric printer, or cutting machine, giving you a fully integrated network of tools that work together.

Take advantage of Artspira's capabilities to expand your product offering. Combine embroidery and sublimation projects in the app to create unique and vibrant items. Artspira helps you work smarter and bring your ideas to life.
