

creative elevate™ 680

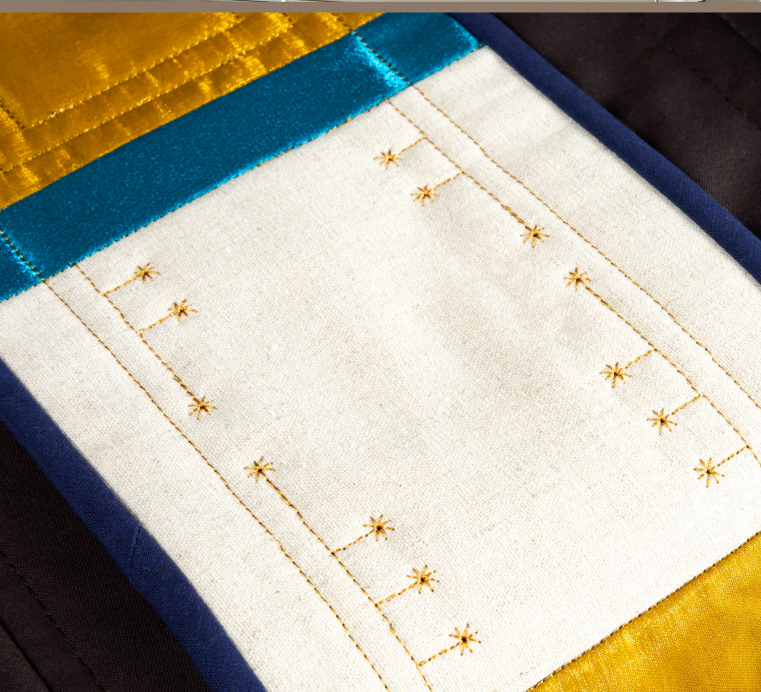

Sewing and Embroidery Machine

**PFAFF**  
Perfection starts here.™

Elevate Your Stitching,  
Elevate Your Style

## creative elevate™ 680

The *creative elevate* 680 machine delivers exceptional sewing performance for makers of every level. Add the optional embroidery unit to unlock a world of embroidery possibilities and expand your creative potential even further.

### Sewing

#### The Original IDT™ System

Original since 1968. The Integrated Dual Feed (IDT) from PFAFF® precisely feeds all types of fabric from the top and bottom for perfect stitching every time without the need for any additional accessories.

#### Large Color Capacitive Touch Screen

Get all the information you need directly on a large 7" (153 x 85 mm) color capacitive touch screen. View your settings clearly and make all your edits on screen with confidence. The capacitive touch tablet-like screen allows you to easily navigate on-screen using touch gestures like swipe, pinch and spread.

#### Exclusive PFAFF Stitch Techniques

Create unique finished projects with hundreds of sophisticated stitches, including exclusive and patented stitch techniques, such as, Floating Stitches, Radiant Stitches, Ribbon Stitches, Lace-Edge Stitches and Stacking Stitches.

#### Over 400 Built-In Stitches

Be astonished by the fascinating selection of PFAFF high-quality stitches.

#### Built-In Learning Center

Now you can learn how to sew, setup your machine and master new techniques right from your machine's screen, no need to search for the perfect tutorial online or even leave your seat. There are a wide variety of built-in interactive tutorials for specialty techniques, zippers, hems, quilting and much more.

#### Built-In Quick Help

Not sure what something on screen means? With just the touch of a button, you can see a quick description of whatever you want to know more about on-screen. Spending time looking everything up in your manual is a thing of the past.

## Create with CREATIVATE™

#### CREATIVATE

CREATIVATE is a digital toolkit that streamlines every step of your creative process, from your first spark of inspiration through your final finishing touch. It's all inside.

#### Design Catalog^

CREATIVATE Design Catalog has thousands of beautiful ready-made embroidery designs, from flowers and fonts to appliqué and more. The best part: you can access the full Design Catalog on-screen, so you don't have to leave your machine to find the perfect design.

#### CREATIVATE Blog

Access a live feed directly on your screen of news, free projects, free designs and more.

#### CREATIVATE App^

Download the free app that connects your phone to your machine. Digitize photos on the go, get live machine updates and more.

## Sewing and Embroidery Machine

### Optional Embroidery Unit\*

You can start with sewing and upgrade to embroidery whenever you're ready, without needing to replace your current machine.

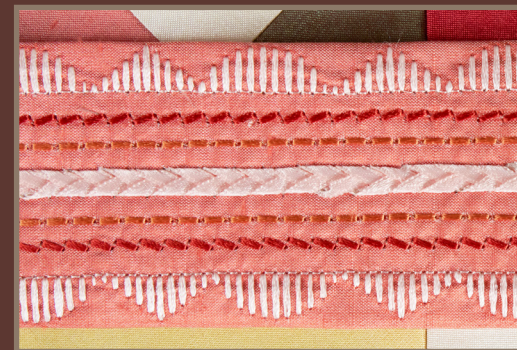

### Automatic Needle Threader

Thread the needle quickly and easily with the push of a lever to get stitching sooner and with less frustration.

### Top & Bobbin Thread Sensors

Top and bobbin thread sensors alerts you if the bobbin or needle thread breaks. They even tell you when the bobbin is getting low, so you don't continue sewing without thread.

### Automatic Thread Tension

Best tension is set automatically for all sewing techniques and fabrics, taking the guesswork out of getting perfect tension. Override automatic tension easily for specialty techniques.

### Built-In Thread Cutter

Trim both the top and bobbin threads with the touch of a button. No need for scissors or to draw up the bobbin thread to start sewing again.

\* Embroidery unit sold separately.

## Embellish your Favorite Dress with Signature Embroidery Designs\*

### Step Through Embroidery by Color and Stitch-by-Stitch

Enables quick design tweaks—users can easily skip or repeat specific color blocks to personalize their project. If a thread breaks or a design stops mid-way, users can easily resume from the exact stitch where they left off instead of starting over.

### Basting Options

Use basting to secure the fabric without hooping, great for premade garments or hard to hoop thick fabrics. Choose between baste around design or baste around hoop area.

### Edit Designs On-Screen

Quickly rotate, scale and move designs on your machine screen to create a custom look or to stitch in the correct position for your project no matter what way you hoop it, no need for additional software.

### Move Into Hoop and Corner Check

Easily place your design on screen with a variety of on-screen tools that will automatically move the design into the hoop for you, or check your corners. This saves you time by removing the focus required to place and find positions manually.

## Embroidery\*

### Optional Embroidery Unit\*

You can start with sewing and upgrade to embroidery whenever you're ready, without needing to replace your current machine.

### Large Embroidery Area

Embroider design sizes up to 360 x 200 mm without re-hooping.

### Exact Position

Use the Exact Position feature to fine-tune the perfect placement. Easily match multiple hoopings to create embroideries at the ideal size.

### Change Design Stitch Out Order

Manage overlapping design elements and minimize thread changes by arranging designs in your preferred order.

### Create Shape

Create unlimited new embroideries using any stitch and/or embroidery. Choose your shape and adjust your selected designs or stitches on this shape line.

### Automatic Thread Cutter with Automatic Jump Stitch Trim

Automatically cuts threads between color changes or jump stitches, pulling threads to the back side.
