

TinLizzie18LS

The TinLizzie18LS is the flagship machine of our company! The famous Lizzie Stitch, 5-year warranty, oil reservoir, built-in bobbin winder, largest capacity bobbin, flexible lamp, needle up/down, laser light, pantographs, and ergonomic handles all make the TinLizzie18LS your best choice when considering a long arm quilter. With the 18" open area, all the included features, and the highest quality, no other company can match our machine at such an affordable price.

Shirley Stitcher Computerization	Available

Tinlizzie18LS Frame

The **TinLizzie18LS Frame** is designed with home quilters in mind. It is made of 13-ply laminated Baltic Birch wood of the highest quality and strength. With easy assembly and the ability to stretch out up to 10 feet (120"), you can accomplish quilting baby to king-size quilts in no time. Your TinLizzie18LS mounts easily on its carriage deck and glides smoothly to allow for easy quilting.

(1-1/4" conduit EMT pipe not included.)

Lizzie Stitch

Your **TinLizzie18LS** model features soft-touch button controls on each handle. When you select the famous Lizzie Stitch, your machine coordinates with your movements; as you move the machine it sews, when you stop it stops with you. With stitch regulation so precise, and stitching as small as 21 stitches per inch, you have the finest ability for micro stippling.

Auto Needle Positioner

Your **TinLizzie18LS** allows the quilter to have the machine stop in the needle up or needle down position. It minimizes bending or breaking needles and allows for free movement of the machine.

Built-In Bobbin Winder W/ Large Bobbin

Your **TinLizzie18LS** offers a built-in bobbin winder that winds while you quilt, so your next bobbin is always full and ready. It also features the largest available bobbin capacity, the M-size bobbin.

Flexible Lamp

Your **TinLizzie18LS** offers you light right where you need it! The flexible lamp bends in close for micro stippling, and adjusts to the back for pantographs.

Oil Reservoir

Your **TinLizzie18LS** model requires little maintenance. The oil is self-contained so you no longer have to worry about oil on your quilts or oiling the hook with every bobbin change.
