Fabric Cutting Tips for an 12" finished Snail's Trail block:

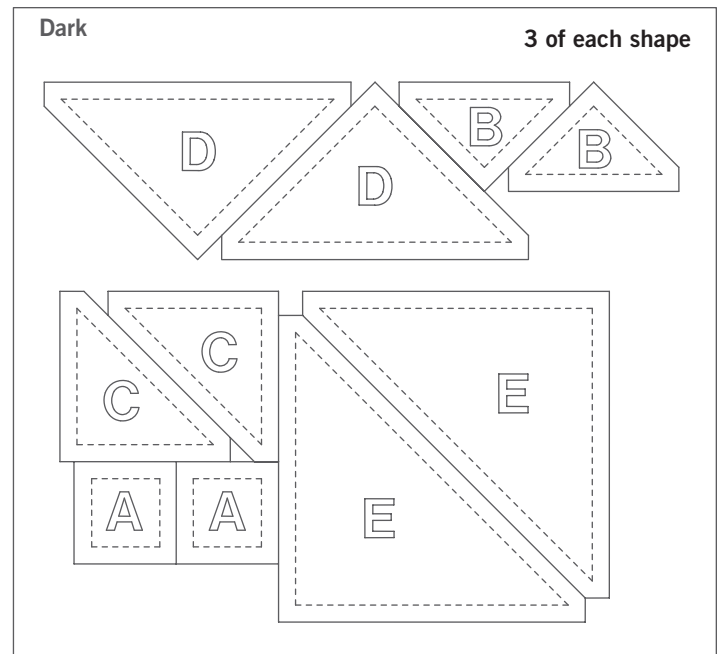

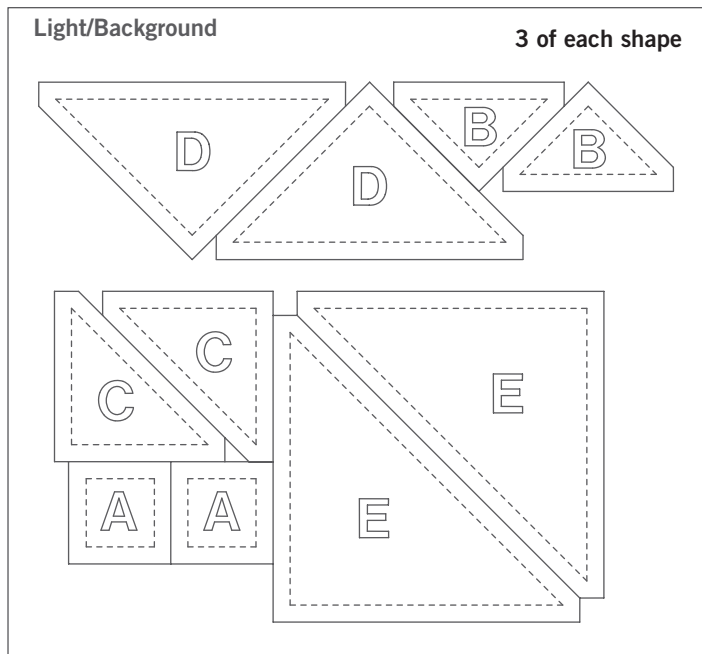

Place fabric over shapes then run through the cutter:

For best cutting results, position fabric on the lengthwise grain (straight of grain) as it goes under the roller.

- **TIP:** The die is designed to cut three complete 2-color 12" blocks in one pass through the cutter. To create 2-color Snail's Trail Blocks: Cut three layers of one fabric color and three layers of a contrasting fabric color at a time.
- **BONUS TIP:** You also can cut two complete 4-color 12" blocks in one pass through the cutter. To create 4-color Snail's Trail Blocks: Cut four layers of different fabric colors at a time.
- Cut 13½" strips across the width of fabric. Fanfold into 11¼" widths. Place on selected blade and cut. For a 2-color design, three cuts across the width of fabric yields enough pieces for a half block design; and one yard of 40" wide fabric in each color will yield six blocks.
