Fabric Cutting Tips for a 2-color, 6" finished Spider Web quarter unit:

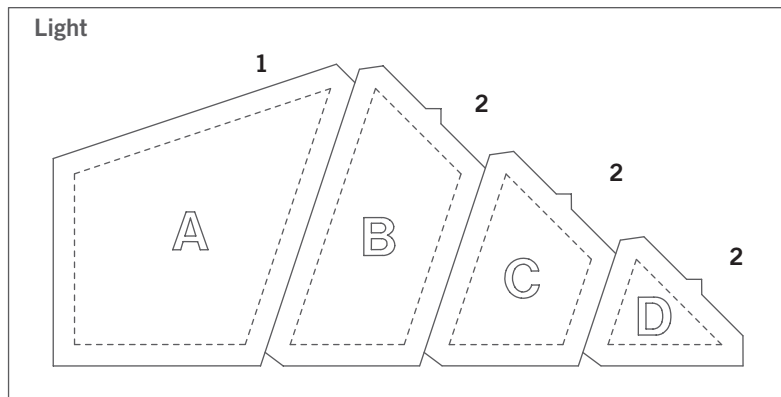

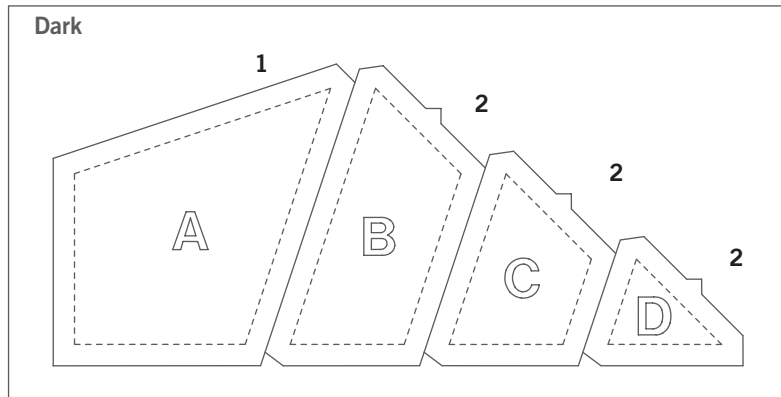

Place fabric over shapes then run through the cutter:

Note: Find directions for a 12" Finished Spider Web block on next page.

For best cutting results, position fabric on the lengthwise grain (straight of grain) as it goes under the roller. For 2-color unit, cut two layers of one fabric color and two layers of a contrasting fabric color at a time.

- Cut two 8½" x 4" rectangles. Place one layer of fabric and one contrasting layer of fabric right side up over shapes A, B, C and D to cut shapes.
- Cut two 6" x 4" rectangles. Place one layer of fabric and one contrasting layer of fabric wrong side up over shapes B, C and D to cut shapes.
- For a two-color design, 10 cuts across the width of fabric yield enough pieces for five complete blocks; and one yard of 40" wide fabric in each color will yield 20 blocks.
