No-No List for Sewnatra & Auntie

These machines are ones that we know won't fit but there may be others especially as new models are introduced. Please measure your machine to be sure yours will fit.

Please note: These cabinets come with a Universal Insert which will accommodate machines that are 17" right to left or less by no more than 7-1/4" front to back. If your machine is larger than the Universal insert opening but fits the cabinet, you may be able to order an optional custom made, machine specific insert.
