Designed by a Quilter, for Quilters.

Cropping the Start and End Point on a Sashing or Border Repeat.

Learn how to crop the start lead in and end lead out of a repeated design.

1. Select Design

- Select **File** tab.

- Press **Design.**

- Press **Open.**
- Select **Designs/HQ Designs/Continuous Line/Leaf Trail**
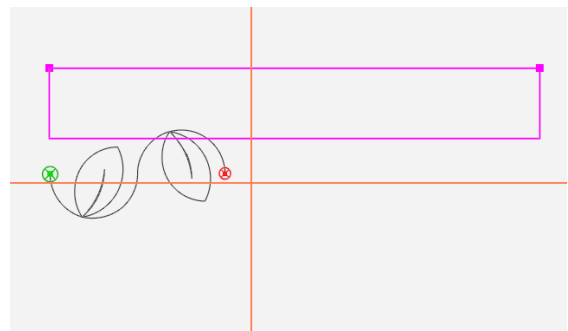

2. Create an Area

- Select **Area tab.**

- Move machine to a corner of the border on the quilt.
- Press **Multi-Point.**

- Continue moving the machine and pressing **Multi-Point** around to the other three corners of the border.
 There should be four points for the area.

.
- The area now appears as a pink rectangle border.
- Press **Refresh** in the status bar at the bottom of the screen. The sashing area, design and crosshairs will be visible in the workspace window.
2. Repeat Design

- Press **Basic.**

- Repeat the amount that looks best in area. Three repeats works best for this area.

- Press **Baseline** in the Quick Access toolbar or find **Baseline** under the Modify tab. This action will cause the three repeats to become one long repeat.

4. Move Start and End Points

- Select **Pro-Stitcher** tab at the top of the screen.

- Press **New Start & End** in the Ribbon.
- Move the green **Start** circle to the base of the leaf at the beginning of the leaf repeat and then move the red **End** circle to the base of the leaf at the end of the leaf repeat by pressing the arrows.

- Notice where the green Start and the red end circles have moved to.

5. Crop

- Select **Modify.**
- Press **Crop.**

- Press **Start End** in the sidebar.

- The beginning tail and the end tail will be cropped off.

- Compare the two repeated designs to see the difference.
Start and End Not Cropped

Start and End Cropped

6. Skew to Area

Select **Modify**.
Press **Skew.**

- Press Skew 1.

- The design will skew into the area box without tails on either end.
