Positioning and Resizing Corners in a Border

1. Select Design

- Select **File** tab.

- Press **Design.**

- Press **Open.**
- Select **Designs/HQ Designs/Corners/Leafy Vines Corner**
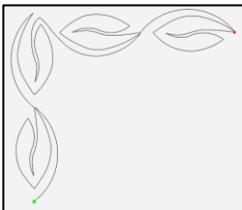

2. Create an Area

- Select **Area tab.**
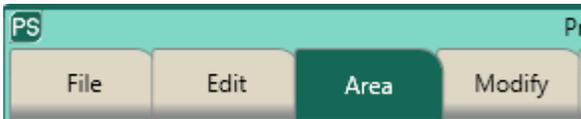

- Move machine to top left corner of the quilt border.
- Press **Multi-Point.**
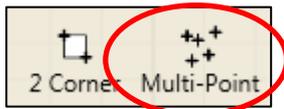

- Move machine to the top right corner of the quilt border.
- Press **Multi-Point** again.

- Continue around the border area including a few inches down each side of the border to create a pink "U" shaped area which includes both corners and top border.
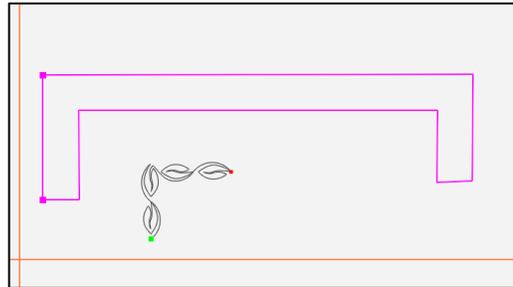

- The area now appears as a pink box.

- Press **Refresh** in the status bar at the bottom of the screen. The area, design and crosshairs will be visible in the workspace window.

3. Align to the Left Corner Area.

- Select **Modify** tab.
- Press **Align.**
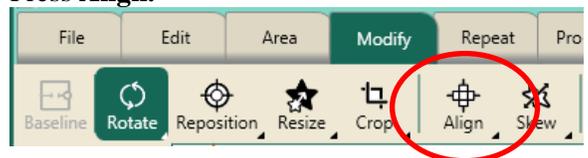

- Press **Left Horizontal** and **Top Vertical** in the sidebar on the right side of the screen to align the leaf design to the top left of the area.
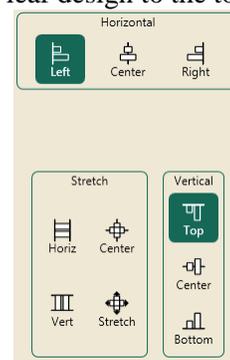

4. Resize in the Area

- Select **Modify** tab.
- **Press Resize.**
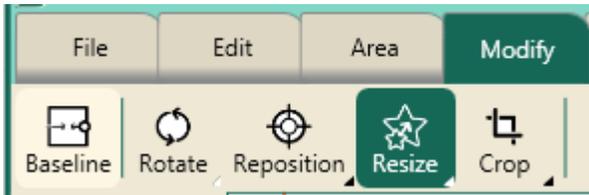

- Press the **Width** button.
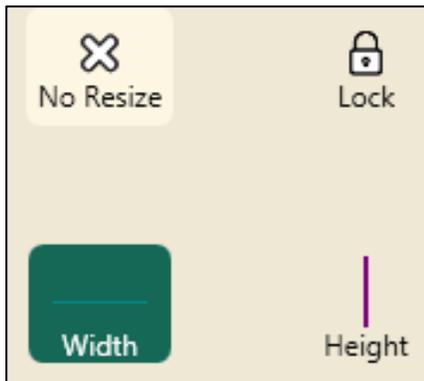

- Press the "+" button to increase the width to fit the side border.

5.48
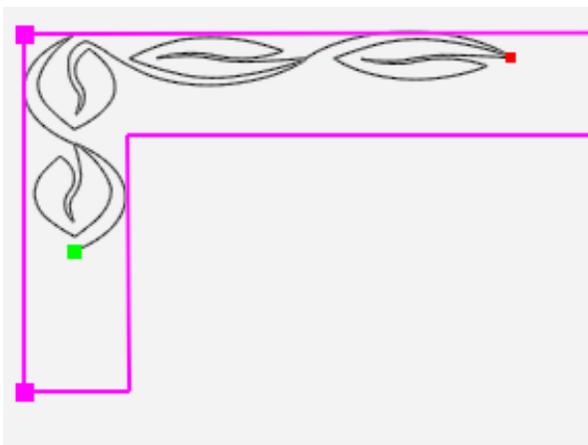

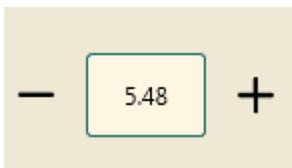

- Press the **Height** button.
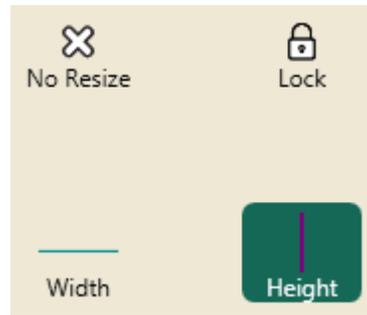

- Press the "+" button to increase the height to fit the top of the border.
- The design will resize and reposition within the area.
  NOTE: The "leg" of the leaf design resized outside of the area. That is not a problem because you are using the corners to align and resize, not the length of the area "leg".
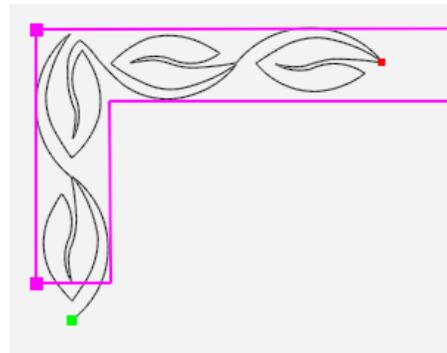

- Press **Baseline** under the Modify tab.
- Stitch Left corner on the quilt.

5. Rotate for Right Corner

- Select **File** Tab.
- Select **Duplicate.**
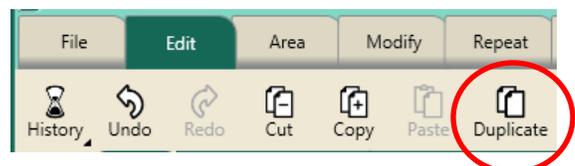

- Rotate the duplicate leaf design clockwise to place in the right corner of the area.
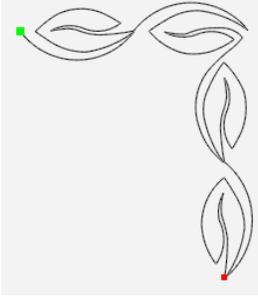

6. Align to the Right Corner Area

- Select **Modify** tab.
- Press **Align.**
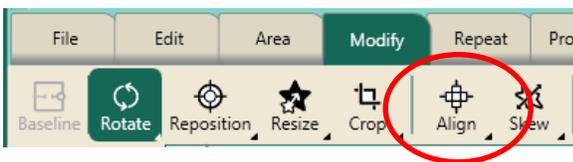

- Press **Right Horizontal** and **Top Vertical** in the sidebar on the right side of the screen to align the leaf design to the top right of the area.
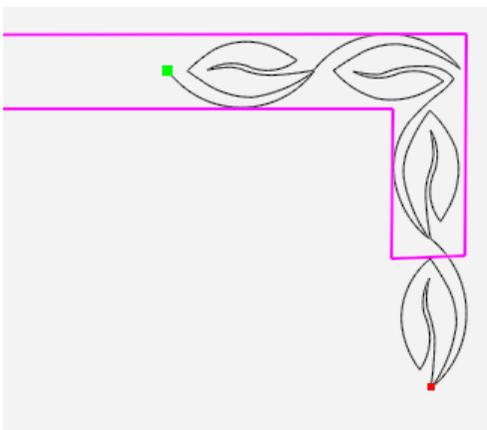

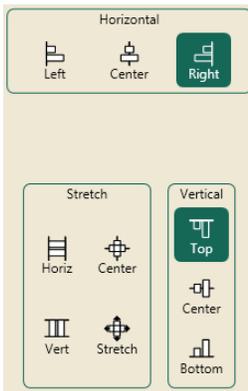

- Check the design to see how it fits in the right corner area. If the design needs to be resized go back to **4. Resize in the Area** and resize to the area.

- Another option is to use the **Duplicate** button under the **File** tab to duplicate a copy of the leaf corner.
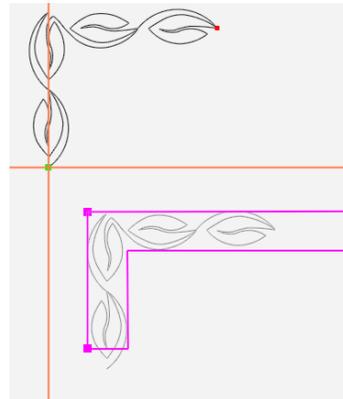

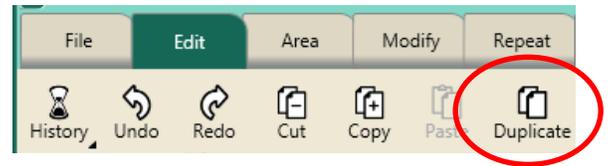

- Select **Modify** tab.
- Press **Rotate.**

- Rotate **Clockwise.**
