

**PERFECTLY
ALIGN
ANY DESIGN,
EVERY TIME**

THE HOTRONIX® PROPLACE IQ™

Unleash the power of precision printing, rapid production, and heightened efficiency with the revolutionary Hotronix® ProPlace IQ™. Paired with the best-selling Hotronix® Dual Air Fusion heat press, this innovative system features a patented projection alignment system for the perfect print.

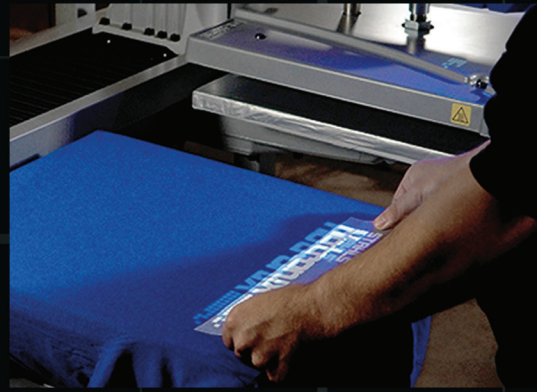

Custom designs are projected directly onto blank garments so decorators can quickly and easily align transfers, eliminate errors, save valuable production time, and reduce waste.

- Designs project onto lower platen
- Takes the guesswork out of alignment
- Ideal for large jobs & faster production
- Available for the Dual Air Fusion IQ®

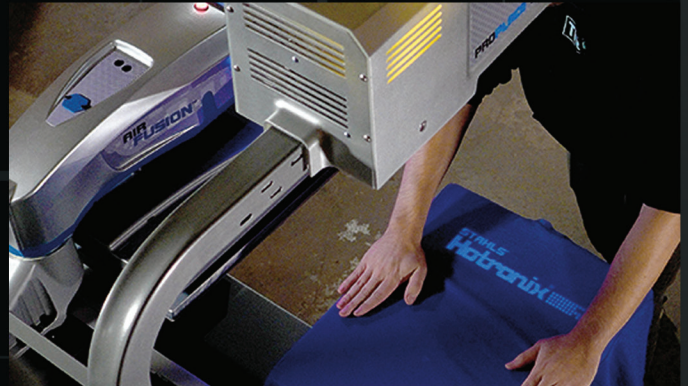

INTEGRATION WITH DUAL AIR FUSION IQ®

The ProPlace IQ™ system is designed to accurately boost production with the Dual Air Fusion IQ®. Decorators now have access to an unmatched tool for precision printing. Available as a standalone retrofit for existing Dual Air Fusion IQ® presses or as a fully integrated system with a new Dual Air Fusion IQ® purchase, the ProPlace IQ™ sets a new standard in efficiency.

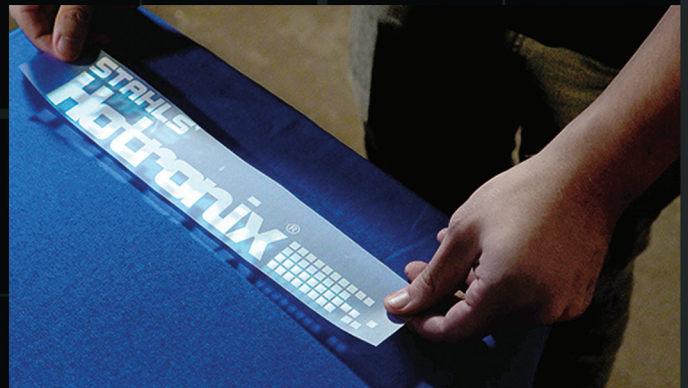

PATENTED PROJECTION TECHNOLOGY

From left chest logos to full back prints, the ProPlace IQ™ ensures swift and accurate placement of transfers. With the simple click of a button, your design projects onto the platen in the location of your choosing. Plus, with enhanced updates to the Hotronix® Cloud, decorators can quickly upload artwork files directly to the Cloud for easy access.

MAXIMIZE YOUR OUTPUT, MINIMIZE YOUR WASTE

Make anyone a pro heat printer with the ProPlace IQ™. By projecting designs directly onto the platen, save valuable production time from increased productivity, minimize errors, and reduce waste from misprints and crooked logos.

SIMPLIFY YOUR HEAT PRINTING & SPEED UP YOUR PRODUCTION

Easily upload your artwork into the Hotronix® Cloud system, and at the touch of a button, watch your design project onto the lower platen, simplifying alignment, speeding up production, and reducing waste from misprints. Just click, position, and press to experience unparalleled efficiency like never before.

ORDERING OPTIONS

The Hotronix® ProPlace IQ™ is available fully integrated with the purchase of a brand-new Dual Air Fusion IQ® heat press or as an individual unit to retrofit to your existing Dual Air Fusion IQ®.

HOTRONIX® PRO PLACE IQ™ FULLY INTEGRATED

The complete Hotronix® Dual Air Fusion ProPlace IQ™ heat press system can be purchased for \$9,995. This price includes a new Dual Air Fusion IQ® heat press with the ProPlace IQ™ alignment system already mounted to the heat press and integrated to the Fusion IQ® control board.

- Wireless Communication via Fusion IQ® Portal
- Navigation, Adjustment, & Storage of Projection Images
- Connectivity to External Systems
- Supported Power within Machine

HOTRONIX® PRO PLACE IQ™ RETRO MOUNT

The ProPlace IQ™ alignment system can be purchased for \$2,495 and mounted to any existing Dual Air Fusion IQ® heat press. The retro mount ProPlace IQ™ must be connected via HDMI input to project images to the platen.

- HDMI Connection to Fusion IQ® Portal
- Navigation, Adjustment, & Storage of Projection Images
- Connectivity to External Systems
- Requires Separate Power Source
