

The Jiffy® Esteam®

Made in the USA

The ESTEAM® hand-held steamer from the makers of professional JIFFY STEAMERS®.

We have spent many years researching, developing, and testing this new hand steamer, and have carefully selected the finest materials available. Below are some of the many reasons we feel Esteam® is not only the most powerful, but the finest hand-held steamer made.

- 3 times more powerful than any hand-held steamer on the market with its 600 watts of power.
- No internal water lines and pumps to become clogged by hard water.
- Uses plain tap water (no salt needed).
- Wide mouth, easy to fill water tank.
- Largest water reservoir on the market...8 ounces.
- Double insulated outer housing for cool-to-the-touch operation.
- Long power cord with molded storage clip for more manageable handling.
- Water level window on both sides of the unit.
- Designed to fit neatly inside your attaché case.

Esteam makes the perfect travel companion. It's lightweight and easy to pack.

Esteam makes a great gift for college students, travelers, newlyweds, and is ideal anywhere space is a premium.

Optional Travel Converter and Plugs
