

Worldwide Leader in Steaming Equipment Since 1940

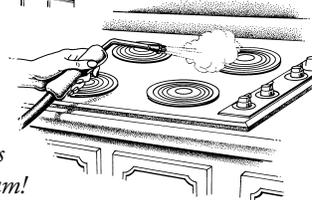

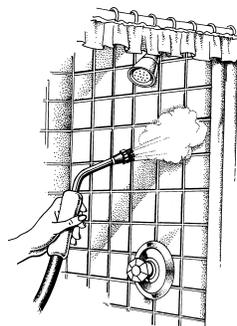

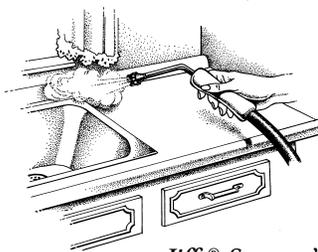

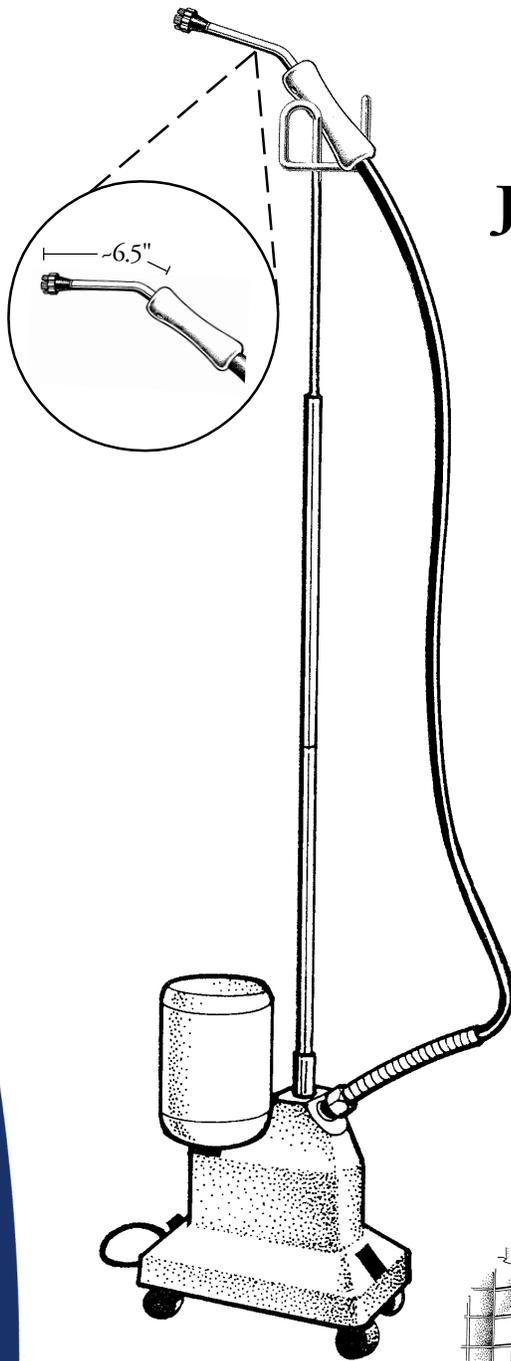

Jiffy® Steamer Model J-2B®

Engineered to last.

The Jiffy® Steamer Model J-2B® is our specialty steamer used worldwide in homes and by cleaning services, service-oriented businesses, commercial establishments and rental outlets. The J-2B®, outfitted with Jiffy® Steamer's new specialty brush steam head attachment, is used as a cleaning tool for tough, ground-in dirt and stains. Chemicals and sprays are not necessary to get the tough jobs done. The steam alone kills bacteria on contact. Scrubbing power is supplied by the stiff-bristled end to direct the tight pattern of steam to the desired surface.

Quality Features:

- Quick two minute heat-up time
- Curved 6½" brass pipe directs steam in a tight pattern
- All brass couplings
- Die cast aluminum outer housing for durability
