## SEWING CABINETS

Sewing cabinets were designed to create an experience that will accommodate longer periods of time spent behind your sewing machine, with increased comfort. Cabinets are designed to easily switch between the freearm and flatbed sewing positions, producing a flush sewing surface with a more ergonomic posture to sew in comfort and sew longer. Most sewing cabinets allow for your sewing machine to be put away into a storage position, creating the perfect home for your machine when not in use.

## BEST WAY TO COMPLETE YOUR SEWING STUDIO

### INSERT

Inserts are designed to fill the gap between the machine and cabinet opening. Each insert is manufactured to fit your cabinet and fill open space around your specific machine delivering the perfect fit.

### ADJUSTABLE HEIGHT SEWING CHAIRS

Our adjustable height sewing chair is a perfect accessory for any craft and sewing room. The chair's height is adjustable with easy to use controls and the cushions provide perfect lumbar support and comfort for those long sewing hours. Chair features five casters on a star base for greater movement at your sewing cabinet or crafting surface. Lift the seat cushion to reveal a hidden storage compartment for your small notions or patterns.
