

*America's Finest Cabinets And Work Tables  
Made in America By American Craftsmen*

**Our New Model 812 Store Display Cabinet  
A Dealer's Delight ! and, it comes  
Pre-assembled**

This Brand new Display Cabinet is rapidly becoming one of our high demand items. It is 60" Wide at the base and 48" High. Using these instead of Sewing Machine Cabinets or Tables draws attention to The Sewing Machine and allows The Sewing Machine Cabinet to be a display of it's own. Our New "Swiss Chocolate" color is very appealing and dresses up your display area. Buy several of them and give your floor that Professional Touch. This cabinet will hold up to seven machines depending on the Size and Mix.

Because of the size and shape of this cabinet it must be shipped in pairs. This requires Dealers to buy them in pairs. The pricing to the right is for single unit purchase for those Dealers providing their own transportation.
