

zippers — invisible

A zipper application where the zipper appears invisible in a seam.

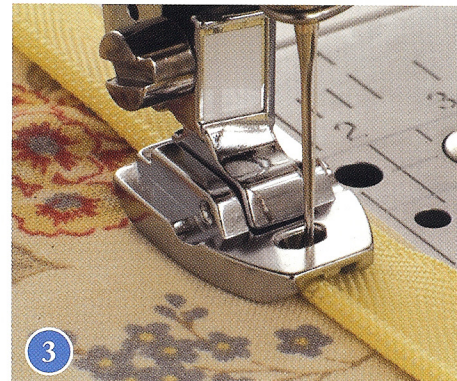

1. For an invisible zipper, do not sew the seam first. Place the right side of the zipper, face down, along the edge of the right side of the fabric. Allow for a 5/8" seam allowance. (#1)

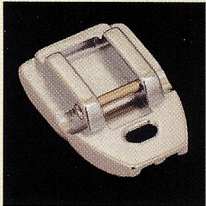

2. Open the zipper and place the coils in the right groove on the invisible zipper foot. Sew from the top to the bottom up to the zipper slide. (#2)

3. Leaving the zipper open, place the remaining fabric, right side up, under the other side of the zipper lining up the seam allowances. Place the coils in the left groove and sew up to the slider. (#3)

4. Close the seam under the zipper by pulling the bottom of the zipper out of the way and match the fabric edges. Stitch the seam.

Invisible Zipper Foot

Stitch: Straight

Width: Pre-set

Length: Pre-set

Tension: Pre-set

Fabric, needles, notions required:

*Fabrics of choice; invisible zipper;
universal needle, size 80/12;
all-purpose sewing thread for needle
and bobbin*
