

Celebrating 140 years of
Magical Innovations

Tribute™ 140C

Once upon a time...

Do you know the story? The story of our brand and world-renowned sewing machines. Follow us on a journey and explore the history of HUSQVARNA VIKING® innovations that have taken place over the last 140 years and continue today. Innovations that are so special we can only describe them as magical...

We are proud of our heritage. It inspires us every day. And we are especially proud that you, our loyal sewing enthusiasts, have been a vital part of our history and future. Since our first sewing machine - the NORTHERN STAR™ - saw the light of day, the HUSQVARNA VIKING® brand has been at the forefront of sewing innovations that delight sewers.

As we celebrate our 140th anniversary, we present a specially designed Limited Edition model appropriately called our TRIBUTE™ sewing machine.

EXCEPTIONAL CAPABILITY

- The extended sewing surface delivers plenty of space for larger projects and quilts.
- The large GraphicDisplay shows the selected stitch in actual size and the recommended settings.
- The Dual Lights illuminate the sewing surface properly to make sewing comfortable and eliminate eye strain.

INSPIRING INNOVATION

- The Exclusive SEWING ADVISOR™ feature helps you optimize your sewing by recommending the presser foot, thread tension, needle size and type.
- The EXCLUSIVE SENSOR SYSTEM™ technology senses your fabric thickness for perfect, even fabric feeding.

CONVENIENT ACCESSIBILITY

- Easy to choose any of the 145 stunning stitches by touching the stitch picture or the number or scroll through menus and stitches with the Navigator Arrows.
- Perfectly Balanced Buttonholes- Sews both sides of the buttonhole in the same direction for even, balanced buttonholes.

1872 NORDSTJERNAN™

Tribute™ 140C

Everything you need to create the sewing projects of your dreams

EXCLUSIVE SEWING ADVISOR®

Selects and sets the best stitch, stitch width, stitch length and sewing speed automatically. Simply enter the type and weight of the fabric and what type of sewing technique you want to sew. The GraphicDisplay will recommend the presser foot, thread tension, needle size and type.

EXCLUSIVE SENSOR SYSTEM™

Senses and adjusts automatically for any fabric thickness for perfect feeding. The Sensor Foot Up automatically raises and lowers the presser foot to four positions, including Sensor Foot Extra Lift for maximum space to slide quilts or heavier fabrics under the foot.

145 STITCHES, 4 FONTS AND 15 MEMORIES

Choose from high quality stitches and alphabet styles. Personalize all of your projects by using any combination of the 7mm wide sewing machine stitches and alphabets. Create quilt labels and unique decorative stitches. Save your favorite combinations in one of the 15 memories.

PERFECTLY BALANCED BUTTONHOLES (PBB)

Beautiful buttonholes with a professional finish. Sews both sides of the buttonhole in the same direction for even, balanced buttonholes. There are seven buttonhole styles and an eyelet designed for various sewing applications.

LIGHT AND SPACE

Easy to see any color fabric or thread at any time of the day. The Dual Lights on your HUSQVARNA VIKING® TRIBUTE™ machine illuminate the needle and extended sewing surface to make sewing easy. The lights eliminate eye strain, especially when sewing fine details.

The HUSQVARNA VIKING® heritage!

Since 1872, our goal has always been to spread the joy of sewing through high-end convenience and time-saving innovations, as well as through inspiration, education and personal service. Sewing enthusiasts all over the world associate the brand with high-quality engineering, exceptional capability and intuitive design. We are proud to present the HUSQVARNA VIKING® timeline that shows how it all began.

1872 – The rifle producing company HUSQVARNA® produced its first sewing machine, NORDSTJERNAN™ (The Northern Star™).

1883 – The FREJA™ sewing machine model was introduced, innovating with the perfect straight stitch. Versions of this model sold for almost 40 years.

1903 – Introduction of the oscillating bobbin - CB sewing machine, “the sewing machine for families and craftsmen” - became a global leader for more than 50 years.

1934 – A sign of the times, functionality became the focus, contrasting the earlier ornate styles. The first HUSQVARNA® electric sewing machine was presented, the CBN CLASS 12.

1947 – The first free-arm sewing machine was introduced: the HUSQVARNA® ZIG-ZAG™ sewing machine. A free arm offered convenient access. The zig-zag stitch created capability for many new sewing possibilities.

1953 – The CLASS 20 sewing machine was introduced. Exclusive features such as a gearshift transmission, and a jam-proof hook that needed no oil.

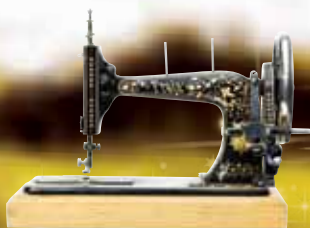

1960 – The biggest innovation yet: the HUSQVARNA® 2000 model. A whole new level of convenience with color coded settings and automatic feed for elastic stitches.

1972 – A pioneering development led to the HUSQVARNA® CENTENNIAL™ series, the first lubrication-free sewing machine.

1979 – Model 6680, “the computer sewing machine”, became a reality. The following year, the world’s first “writing” sewing machine was launched - the model 6690, was able to sew letters.

1989 – The HUSQVARNA® 1100 sewing machine offered sewers unlimited creativity with convenient, exclusive features, such as ONE TOUCH DIRECT STITCH SELECTION™ feature, SEWING ADVISOR™ feature, INFODISPLAY™ feature and PROGRAMDISPLAY™ feature.

1994 – The HUSQVARNA VIKING® ORCHIDEA™ sewing machine was based on the same features as HUSQVARNA® 1100 sewing machine but with an incredible plus: professional-quality machine embroidery!

1883 FREJA™

1934 CBN CLASS 12

1947 ZIG-ZAG™

1953 CLASS 20

Our most recent innovation, the *deLuxe™* Stitch System, is featured on the DESIGNER DIAMOND *deLuxe™* sewing and embroidery machine and ensures gorgeous embroidery results even with novelty threads.

2011 DESIGNER DIAMOND *deLuxe™*

1998 – A completely new sewing experience commenced: the HUSQVARNA VIKING® DESIGNER I™ sewing machine, with unique, new-to-the-world features including The Sensor Foot Lift, Sensor Foot Pressure, Selective Thread Cutter, Color Touch Screen, Built-in Disk Drive and more developed embroidery capabilities.

2004 DESIGNER SE™

2004 – The technically astounding new top-of-the-line machine DESIGNER SE™ sewing machine was launched with groundbreaking technology such as Interactive DESIGNER™ Screen, LED lights, exclusive EMBROIDERY ADVISOR™ feature and USB connectivity.

1998 DESIGNER I™

2011 – The DESIGNER DIAMOND *deLuxe™* sewing and embroidery machine was introduced continuing the HUSQVARNA VIKING® heritage of innovations, including the amazing feature *deLuxe™* Stitch System.

Today – Market leading, innovative sewing and embroidery machines with many first-to-develop inventions, continuously striving to be on the forefront of cutting-edge innovations.
